

## *Menu of Services*

SCENTRIFUGAL EVENTS offers a variety of unique, innovative and creative services to make any event extraordinary!

Whether you are planning a corporate affair, team building event, sweet sixteen, bachelorette party, quinceanera, b'nai mitzvah, shower or wedding and seeking that incredible out-of-the-box celebration, Making Scents Live! is the premiere experiential event.

We will collaborate with you or your event planner to create a customized and personal memory of a lifetime!

### ***'LET US 'SCENT ENTERTAIN YOU'***

A group party led by our scent entertainer, where each guest creates a custom, personal one-of-a kind scent. Perfect for all types of events.

*Included* is a custom fragrance kit with six different scents that offer enough fragrance to make one ounce of perfume/cologne in an atomizer bottle and another two ounces to play with at home, all the tools needed to blend the liquid, and a recipe card so that guests can remember the ingredients for future blending.

You provide the space, food and drink and we provide *a smell of a good time!*

### ***'CELEBRATION OF THE CENTURY'***

Your event should be a celebration to remember! By bringing *Making Scents Live!* to your special occasion, guests will always remember how unique your day was and will continue remembering each time they use the personal fragrance they created themselves. Scent produces one of the most powerful sensory memories!

*Included* are our scent entertainers, located at a fragrance station where guests will be guided in making their own personal scent from an assortment of beautiful, dynamic fragrances. Each guest will leave with a one-ounce bottle of fragrance they have created with a custom label with the names of the hosts, (*ex: Ashley and Ryan's Scent-Sational Party*). What fun they will have at the affair and what a fabulous party favor to use and conjure up memories of you later!

### ***'CURATE AND CREATE'***

Let us collaborate with you and expertly guide you on a one-on-one-basis to design and create your unique personal event day fragrance. Perfect for brides, grooms, mothers-of-the-brides or wedding parties, hostesses, and more who want a scent of their own for your most important day.

*Included* is your private consultation with one of our Fragrance Creation Specialists and delivery of the final product. A custom label will be created for your bottle(s), as well.
