“

*“We had a wonderful experience with Sarno for our wedding tuxedo rentals (a total of 16 tuxedos). They made it easy to manage all of the groomsmen through their online portal and accommodated all of us quickly with trying on and picking up our tuxedos. The staff was always polite, both in person and on the phone. Most importantly, the tuxedos were very sharp! Thank you Sarno!”*

# Suit or Tuxedo?

Here are some helpful tips for distinguishing & deciding on a suit or tuxedo:

The main noticeable difference between suits and tuxedos is the lapel fabric. Traditional tuxedos feature either a full satin or satin trim lapel, while the lapel of a suit tends to match the jacket and pant fabric. Don't forget about the pants! Tuxedo pants traditionally have a satin stripe or bead down each leg. Why? So when you break it down at the reception your pants shine as bright as your dance skills.

Your main goal for your wedding is to look fantastic. Whether you are the groom, groomsmen, or a guest, what you wear to the wedding is always very important.

The biggest question however, is "Should I wear a suit or tuxedo?" That answer isn't always that clear.

We're here to help distinguish the difference between these two styles and on deciding which is appropriate for your wedding.

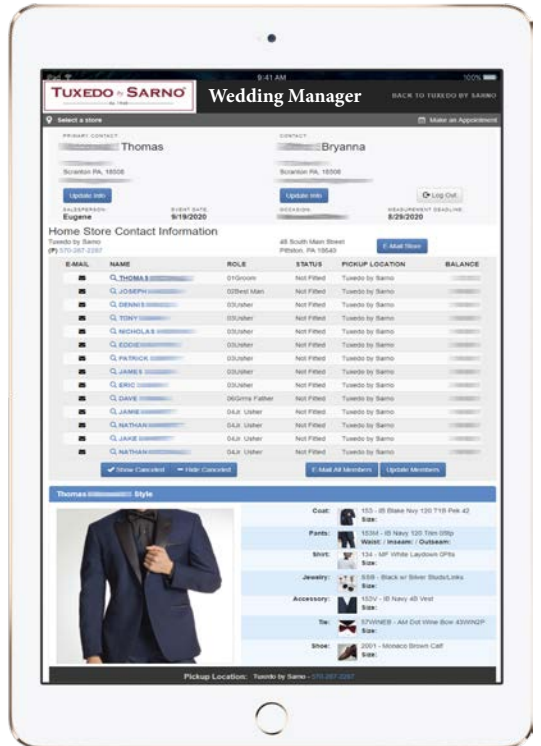

**YOU CAN CHOSE FROM MANY OF OUR STYLES THAT HAVE A BLEND OF BOTH.**

“They easily accommodated us and had everything ready within 2 hours! We made some last minute changes (the day before) to the tuxes for our wedding. We also picked out the tuxes from a store in another state because we had our wedding in PA, but did not live there. They were so nice and called to check in with me and make sure everything was how I wanted it. Couldn't ask for better service!”

## The FACTS about TEXTILE WASTE

The U.S. generates an average of **25 BILLION POUNDS** of textiles\* per year.<sup>1</sup>

That's about **82 POUNDS** per U.S. resident.

\* Textiles includes clothing, footwear, accessories, towels, bedding, drapery, etc.

Of that 82 pounds...

**15%** gets donated or recycled

3.8 billion lbs recovered through donation/recycling (12 lbs per person)

**85%** (70 pounds per person) goes to our landfills.<sup>2</sup>

USEPA Municipal Solid Waste Generation

That 85% adds up to about **21 BILLION POUNDS** of post-consumer textile waste (PCTW) **PER YEAR**

More than **5.2%** of all municipal solid waste generated in the U.S.<sup>3</sup>

## AND THIS AMOUNT IS GROWING

Between 1999 and 2009 the volume of PCTW generated grew by 40%, while the diversion rate only increased by 2%.<sup>4</sup>

Which is why we set our goal:

# ENVIRONMENTALLY RESPONSIBLE FORMALWEAR

According to the EPA, Americans are throwing away 16 million tons of textiles every year, mostly clothing. That averages to about 70 pounds of clothing per person ending up in landfills.

Part of the problem is "fast fashion" practices. Stores that offer cheap options for the latest trends, with constant shipments coming in. When those trends don't sell, companies throw out merchandise, often damaging it, so it cannot be worn. And while these questionable practices have been brought to light, the fact remains that stores are still engaging in them.

With only 15% of all reusable textile being recycled, Sarno and Son is committing itself to sustainable fashion:

- We offer high-quality garments that don't go out of style in a few weeks
- We clean large lots with environmentally sound practices to cut down on waste and energy use
- Our fleet of vehicles only deliver when stores order merchandise
- We donate our old styles to non-profit organizations
- We recycle our packing materials, including garment bags

For less than the price of purchasing a suit or tuxedo, you can rent a great-looking outfit that won't sit in your closet until you throw it away. And after your event, someone else can wear that same great-looking outfit.
